Risk and Delinquency Management (RDM) for MFIs

M2i Trainings invites participation for a three day training course on 'Risk and Delinquency Management (RDM)'. This course intends to acquaint participants to the key concepts relevant to Risk and Delinquency Management. M2i has already trained more than 200 individuals from Kerala, Orissa, Maharashtra and Chattisgarh on this course. Participants have found it very useful as the course integrates the basics of microfinance with the advanced concepts of delinquency and risk management. They reported enhancement in technical skills as well as increase in confidence levels.

Who will benefit?

- Senior and middle level managers of MFIs
- Bankers and other investors interested in the microfinance sector
- Analysts and consultants

Methodology

This training will be organized in the form of a workshop spread over three days. Role-plays, case studies, exercises and presentations will be used extensively for effective assimilation of the concepts. The training methodology is highly participatory. The participants will be encouraged to learn from each other.
